Export, PA 15632

## Rates

Every event is different. Tell me what your goals and needs are and I will make every effort to work with you for a mutually equitable result!

## Speaking topics

### Veterans *"Avoid being one of the 22"*

Every day 22 veterans commit suicide. I discuss simple, commonsense strategies to help veterans avoid becoming a statistic. I am the co-author of an upcoming book "How to Build a Relationship With a Combat Veteran." I discuss:

- Avoiding isolation
- Building healthy relationships
- The importance of community

### Caregivers *"Intimate relationships with disabled people"*

Relationships are hard. The additional challenges posed by a partner having a disability can destroy any chances of a relationship. I co-authored an upcoming book "Mom, I'm Getting Married to Someone in a Wheelchair." I address:

- Whether or not you should be a caregiver.
- Intimacy and building a family.
- Being prepared for anything.

### Contractors *"Do you really want to be a contractor?"*

Tradesmen and others get into contracting to "make the big bucks" without knowing what they're getting into. As detailed in my book "Becoming a Handyman", I teach individuals and early-stage contractors how to start a solid business with integrity including:

- What kind of business is really right for you?
- How to start making a REAL profit on your very first job.
- The importance of good character.

### Businesses *"Practical Access"*

In our book "The Cardinal Rules of Specialty Customer Relations", Dawn and I explain how addressing ADA accessibility guidelines can actually make businesses better for all customers. All that's required is a different point of view! We outline:

- Avoiding barriers to Entry
- The best way to evaluate your space
- Employee training
